

# Quick Setup Guide

## Portable Hard Disk Drive

### HD-PHU2/BST Series

# **BUFFALO**<sup>TM</sup>

## Unpacking and Setup

This section provides unpacking and setup information for Portable Hard Disk Drive.

Open the shipping carton of Portable Hard Disk Drive and carefully unpack its contents. The carton should contain the following items:

- |   |   |
|---|---|
| ■ Main Unit (Portable Hard Disk Drive)  | 1 |
| ■ Power Adapter                         | 1 |
| ■ USB Cable                             | 1 |
| ■ Quick Setup Guide (this user's guide) | 1 |

If any items are missing or damaged, please contact the reseller or retailer from which the product was purchased.

### Windows 2000 & XP

- Connect the included USB cable into the USB port on the back of Portable Hard Disk Drive.

- Connect the USB cable into the USB port on the computer or device you are adding the Portable Hard Disk Drive to.

- In Windows 2000 and XP, the Portable Hard Disk Drive will automatically install upon power-on.

- Open 'My Computer' and the new drive will be present. By default it will pick the first available drive letter and will be named 'Local Disk'. The Portable Hard Disk Drive comes pre-formatted so you may begin using it immediately.

## Windows 98SE & ME

The Portable Hard Disk Drive requires drivers to run with Windows 98SE and may require drivers for Windows ME. If the Windows ME did not automatically find and install the drivers automatically upon connecting it to the computer, then please follow these steps.

- Before connecting the Portable Hard Disk Drive to the computer, please download the Windows 98SE driver from the Buffalo Technology web site. The URL for the support download page is:  
<http://www.buffalotech.com/support/downloads.php>
- Extract the downloaded file, then execute EASYSETUP.EXE. Select "Setup Buffalo USB Hard Drive" and click the '**Start**' button.
- The Easy Setup Wizard will begin running. Please follow the on screen documentation to complete the Portable Hard Disk Drive Setup for your computer.

## Macintosh

- ▶ Connect the included USB cable into the USB port on the back of Portable Hard Disk Drive.

- ▶ Connect the USB cable into the USB port on the computer or device you are adding the Portable Hard Disk Drive to.

- ▶ In MacOS the volume will mount right on the desktop as an icon. Double clicking on it will provide instant access to the Hard Disk Drive.

### Power Booster Cable

- The Power Booster Cable should be used if your computer's USB connector cannot supply enough power to the Portable Hard Disk Drive. It is not a required accessory for most computers, but for best reliability and performance, please use the Power Booster Cable.

**CAUTION:** Please confirm that the Power Booster Cable is connected properly before attaching the USB cable to the computer.

**Boost Lamp**

Red: Charging  
Green: Supplying  
Orange: Ready  
Off: Disconnected

**Note:** After connecting the Power Booster Cable, the Power Booster takes approximately 10-20 seconds to fully charge. Once it is fully charged it will power up the Portable Hard Disk Drive.

**Disconnecting the Hard Disk Drive:** When you wish to disconnect and remove the Portable Hard Disk Drive, unplug the USB port from the computer.

### Portable Hard Disk Drive

<b>USB Standards:</b>	USB Specification Rev. 2.0
<b>Capacity:</b>	40, 60, 80, 100GB
<b>Seek Time:</b>	Max. 13 milliseconds
<b>Transmission Speed:</b>	Max. 480 Mbps
